based on electricity, 10 which triggered additional changes launching what some have described as a “new economy.” 11 An expansion of access to higher education and the proliferation of multiple types of higher education institutions in the United States and Europe produced a surge in discovery and helped consolidate and accelerate the growth brought ...

The Fourth Industrial Revolution and Higher Education ...

Key drivers of a 21st century academic "revolution" are identified in a trend report produced for this week's UNESCO World Conference on Higher Education. The drivers are the massification of tertiary systems everywhere, the 'public good' versus 'private good' debate, the impacts of information and communications

Higher Education Revolutions in the Gulf eBook by Fatima ...

Reaching the period exactly before the revolution, the idea of a general education started to develop in France. Since that, during the French revolution (1789-1799) The state of the country was not stable at all, most people would think that the education is the last thing French people would think about in such crises, but the truth was that the leaders of the revolution had the education in their priorities.
