This revised edition incorporates the latest discoveries in the rapidly changing fields of neuroscience and physiological psychology and offers the most comprehensive and integrative coverage of research and theory in contemporary behavioural neuroscience.

For courses in Physiological/Biopsychology An up-to-date, comprehensive, and accessible overview of behavioral neuroscience Physiology of Behavior provides a scholarly yet accessible portrait of the dynamic interaction between biology and behavior. Lead author Neil Carlson and new co-author Melissa Birkett drew upon their experience teaching and working with students to create the new edition of this comprehensive and accessible guide for students of behavioral neuroscience. In addition to updated research, the Twelfth Edition offers an updated art and visual program and a more robust learning architecture that highlights key concepts, guiding students through the text. Physiology of Behavior, Twelfth Edition is also available via REVEL(tm), an immersive learning experience designed for the way today's students read, think, and learn.

"Helps apply the research findings of behavioral neuroscience to daily life. " The ninth edition of "Foundations of Behavioral Neuroscience" offers a concise introduction to behavioral neuroscience. The text incorporates the latest studies and research in the rapidly changing fields of neuroscience and physiological psychology. The theme of strategies of learning helps readers apply these research findings to daily life. "Foundations of Behavioral Neuroscience "is an ideal choice for the instructor who wants a concise text with a good balance of human and animal studies. MyPsychLab is an integral part of the Carlson program. Key learning applications include the MyPsychLab Brain. Teaching & Learning Experience "Personalize Learning" "MyPsychLab is an online homework, tutorial, and assessment program. It helps students prepare for class and instructor gauge individual and class performance." "Improve Critical Thinking" "Each chapter begins with a list of Learning Objectives that also serve as the framework for the Study Guide that accompanies this text. "Engage Students" "An Interim Summary follows each major section of the book. The summaries provide useful reviews and also break each chapter into manageable chunks. "Explore Theory/Research" "APS Reader, "Current Directions in Biopsychology" in MyPsychLab "Support Instructors" " A full set of supplements, including MyPsychLab, provides instructors with all the resources and support they need. 0205962092 / 9780205962099 Foundations of Behavioral Neuroscience Plus NEW MyPsychLab with eText -- Access Card Package Package

consists of: 0205206514 / 9780205206513 NEW MyPsychLab with Pearson eText -- Valuepack Access Card 0205940242 / 9780205940240 Foundations of Behavioral Neuroscience

For courses in Physiological Psychology or Biopsychology A streamlined overview of behavioral neuroscience Foundations of Behavioral Neuroscience offers a concise introduction to behavioral neuroscience with a good balance of human and animal studies. Authors Neil Carlson and Melissa Birkett help students grasp the key concepts of the discipline, apply theory and research findings to daily life, and better understand their own behaviour. Along with the fresh perspectives brought by new co-author Melissa Birkett, the 10th Edition incorporates the latest studies in this rapidly changing field as well as a new dedicated chapter on movement, added in response to faculty feedback. This revised edition incorporates the latest discoveries in the rapidly changing fields of neuroscience and physiological psychology and offers the most comprehensive and integrative coverage of research and theory in contemporary behavioural neuroscience.

Present Knowledge in Nutrition, 10th Edition provides comprehensive coverage of all aspects of human nutrition, including micronutrients, systems biology, immunity, public health, international nutrition, and diet and disease prevention. This definitive reference captures the current state of this vital and dynamic science from an international perspective, featuring nearly 140 expert authors from 14 countries around the world. Now condensed to a single volume, this 10th edition contains new chapters on topics such as epigenetics, metabolomics, and sports nutrition. The remaining chapters have been thoroughly updated to reflect recent developments. Suggested reading lists are now provided for readers wishing to delve further into specific subject areas. An accompanying website provides book owners with access to an image bank of tables and figures as well as any updates the authors may post to their chapters between editions. Now available in both print and electronic formats, the 10th edition will serve as a valuable reference for researchers, health professionals, and policy experts as well as educators and advanced nutrition students.

Body, Brain, Behavior: Three Views and a Conversation describes brain research on the frontiers, with a particular emphasis on the relationship between the brain and its development and evolution, peripheral organs, and other brains in communication. The book expands current views of neuroscience by illustrating the integration of these disciplines. By using a novel method of conversations between 3 scientists of different disciplines, cellular, endocrine, developmental, and social processes are seamlessly woven into topics that relate to contemporary living in health and disease. This book is a critical read for anyone who wants to become familiar with the inner workings of the nervous system and its intimate connections to the universe of contemporary life issues. Introduces the reader to basic principles of brain research and integrative physiology Dissects the dispute between Cajal and Golgi regarding the state-of-the art in the neurosciences and immunobiology Provides a short history of brain research and metabolism Discusses contemporary approaches in the neurosciences, along with the importance of technological versus conceptual advances Examines the dynamics of social connections between two brains, integrating mechanisms of Body/Brain/Behavior-to-Body/Brain/Behavior between subjects
