"Early retirement and lax eligibility for disability are bad for the economy because they reduce labor productivity and the supply of experienced workers, and they are bad for the system because they impose a heavy financial burden that makes it unsustainable." Costa Rica is at a turning point with respect to its social security system. While half the work force is covered and beneficiaries have fared well in the past, the pay-as-you-go (PAYG) pension system is unsustainable for the future. This publication describes the present pension system, its shortcomings, and defends the need for urgent reform. It also makes recommendations on how to reform the system, what should be changed first, and exactly what areas of the pension system should be modified.

The Law Library presents the complete text of the Enhanced Disclosure and New Prospectus Delivery Option for Registered Open-End Management Investment Companies (US Securities and Exchange Commission Regulation) (SEC) (2018 Edition). Updated as of May 29, 2018 The Securities and Exchange Commission is adopting amendments to the form used by mutual funds to register under the Investment Company Act of 1940 and to offer their securities under the Securities Act of 1933 in order to enhance the disclosures that are provided to mutual fund investors. The amendments require key information to appear in plain English in a standardized order at the front of the mutual fund statutory prospectus. The Commission is also adopting rule amendments that permit a person to satisfy its mutual fund prospectus delivery obligations under section 5(b)(2) of the Securities Act by sending or giving the key information directly to investors in the form of a summary prospectus and providing the statutory prospectus on an Internet Web site. Upon an investor's request, mutual funds are also required to send the statutory prospectus to the investor. These amendments are intended to improve mutual fund disclosure by providing investors with key information in plain English in a clear and concise format, while enhancing the means of delivering more detailed information to investors. Finally, the Commission is adopting additional amendments that are intended to result in the disclosure of more useful information to investors who purchase shares of exchange-traded funds on national securities exchanges.
