be actually living.” –Larry Moss, from the Introduction When Oscar-winning actors Helen Hunt and Hilary Swank accepted their Academy Awards, each credited Larry Moss’s guidance as key to their career-making performances. There is a two-year waiting list for his advanced acting classes. But now everyone—professionals and amateurs alike—can discover Moss’s passionate, in-depth teaching. Inviting you to join him in the classroom and onstage, Moss shares the techniques he has developed over thirty years to help actors set their emotions, imagination, and behavior on fire, showing how the hard work of preparation pays off in performances that are spontaneous, fresh, and authentic. From the foundations of script analysis to the nuances of physicalization and sensory work, here are the case studies, exercises, and insights that enable you to connect personally with a script, develop your character from the inside out, overcome fear and inhibition, and master the technical skills required for success in the theater, television, and movies. Far more than a handbook, *The Intent to Live* is the personal credo of a master teacher. Moss’s respect for actors and love of the actor’s craft enliven every page, together with examples from a wealth of plays and films, both current and classic, and vivid appreciations of great performances. Whether you act for a living or simply want a deeper understanding of acting greatness, *The Intent to Live* will move, instruct, and inspire you.

"A significant contribution to the literature on screen performance studies, *Reframing Screen Performance* brings the study of film acting up to date. It should be of interest to those within cinema studies as well as general readers." ---Frank P. Tomasulo, Florida State University
Reframing Screen Performance is a groundbreaking study of film acting that challenges the

long held belief that great cinematic performances are created in the editing room. Surveying the changing attitudes and practices of film acting--from the silent films of Charlie Chaplin to the rise of Lee Strasberg's Actor's Studio in the 1950s to the eclecticism found in contemporary cinema--this volume argues that screen acting is a vital component of film and that it can be understood in the same way as theatrical performance. This richly illustrated volume shows how and why the evocative details of actors' voices, gestures, expressions, and actions are as significant as filmic narrative and audiovisual design. The book features in-depth studies of performances by Anjelica Huston, John Cusack, and Julianne Moore (among others) alongside subtle analyses of directors like Robert Altman and Akira Kurosawa, Sally Potter and Orson Welles. The book bridges the disparate fields of cinema studies and theater studies as it persuasively demonstrates the how theater theory can be illuminate the screen actor's craft. Reframing Screen Performance brings the study of film acting into the twenty-first century and is an essential text for actors, directors, cinema studies scholars, and cinephiles eager to know more about the building blocks of memorable screen performance. Sharon Carnicke is Professor of Theater and Slavic Studies and Associate Dean of Theater at the University of Southern California and author of *Stanislavsky in Focus*.
