*Typography Macro And M*

Micro and Macro Typography in Web Design. Typography can be divided into two areas – macro and micro typography. The relevance of typography on a web page cannot be stressed enough. It is important to consider its nuances and use it in a way to enhance the overall readability and legibility of a web page. Before crafting a page, it is important to understand the difference between micro and macro typography.

*nmwywp.anadrol-results.co*

Macro typography is responsible for the adaptation of the typeface in the general layout of the web design. It is the arrangement of paragraphs, depending on the elements, such as images or colour layout. Macro typography includes, amongst other things, the margins – the distances between individual text containers – and the contrast of the font. Micro typography takes care of the detail in the typeface.
